

SIMULIA Helps Keep My Family Safe

Simulation for the Real World

We depend on our automobiles to be reliable, economical, and safe. Our customers use SIMULIA solutions to understand and improve the safety performance of new vehicles. We partner with our customers to develop realistic simulation methods and technology, which helps them get closer to real world behavior, drive innovation and make safer cars.

SIMULIA is the Dassault Systèmes Brand for Realistic Simulation. We provide the Abaqus product suite for Unified Finite Element Analysis, Multiphysics solutions for insight into challenging engineering problems, and SIMULIA SLM for managing simulation data, processes, and intellectual property.
